At the regular monthly meeting of the Board of Managers, held September 16th, 1912, the following resolution was unanimously adopted:

"The Managers of the Presbyterian Hospital deeply regret that they are obliged to record the death of one of their associates, Mr. Arthur D. Wheeler. For many years he was actively interested in the good work of the Hospital, to which he gave freely of his thought and time. We shall miss his genial companionship, wise counsel and devoted service.

"We wish to record our sense of loss in his death and extend to the family our deepest sympathy, and therefore direct that this resolution be spread upon our records and a copy of it sent to the family of Mr. Wheeler."

REPORT OF THE PRESIDENT OF THE PRESBYTERIAN HOSPITAL

To the Members of the Society, the Churches and All Our Other Friends:

The history of the Hospital for the past year is a record of steady work, quiet and sustained effort, on the part of all connected with it, for its best development.

The two most marked events have been the completion of the "Jane Murdoch Memorial," and the erection of the New Nurses' Home. The former building, after an unexpected delay of seven months, caused by labor troubles, was completed and formally dedicated June 9th, 1912.

All the patients in this building are women and children, in accordance with the terms of the bequest of Mr. Thos. Murdoch. The wards and facilities for care of patients have no superior. In addition, there is a well-arranged and thoroughly equipped Routine Laboratory, of ample dimensions for doing the best work, and in charge of our resident pathologist, who has brought to his work enthusiasm and ability.

Ample room has been given to the X-ray Laboratory. The most approved appliances have been installed, the staff increased, and standard of work has been steadily elevated.

One of the most important advances in the practice of medicine and hospital treatment has been X-ray diagnosis. The laboratory has become of great value in the investigation of involved physical conditions, and its use in such research is rapidly increasing. With this demand has come special machinery and superior methods. Our staff early recognized the value and importance of this agency, and has fostered, encouraged and stimulated it. Badly handicapped as it has been heretofore, by cramped and unsuitable space, it has nevertheless accomplished highly efficient work. Now with proper accommodations, and the addition of improved apparatus, its efficiency is greatly enlarged, and it is successfully doing the most advanced work. Its head has been made a member of the medical staff.

The building is fireproof, of the latest type of construction, and the effort has been to make it plain, simple and dignified, as durable and permanent as

possible, and arranged for the best care of our patients; all in such manner as we believe would have been the wish of the generous giver had he expressed it.

Our entire plant is now fireproof.

I have presented the need of a new Home for our Training School for the past four years. The necessity for action became imperative, and while your Board hesitated to undertake it on account of insufficient funds, no option was left at last and the building was commenced last August. We hope it will be completed by July 1st next. It is also fireproof, embodying every known improvement in that respect. It is to house 160 nurses, and contains class rooms, demonstration rooms, laboratory and small reception rooms. On the roof is a large space for a so-called garden and sunparlor, which will be a great benefit to our nurses when off duty. We believe that for the proper administration of our school this building has no superior. The friends of the late O. S. A. Sprague contributed in the year 1911 \$100,000 as a memorial to him, to be used in "building a Nurses' Home for the Presbyterian Hospital." The cost of building, with land and with the tunnel which connects it with the Hospital under Congress St., will amount to \$350,000. This leaves an indebtedness on the hospital of \$250,000—the only encumbrance or indebtedness of any kind.

The interest on this debt will be a heavy annual burden for us to carry. It was not incurred until it became evident that it was impossible to administer the Hospital in a proper manner without it. Rather than impair the efficiency of our nursing in the Hospital, by reducing our nurses to the number that could be cared for in our old Home, we accepted the responsibility. We now have 137 nurses, and it appears that the full capacity of our Home will soon be used.

Our hope is that generous friends interested in the development of the Hospital, and in seeing it secure the highest standard of nursing, and also alive to the opportunities afforded young women for obtaining the best training in their profession and wishing them to be properly cared for, will be moved to relieve us of this heavy burden.

When this indebtedness is paid, we will have a plant valued at \$1,340,000, with an endowment of about One Million Dollars, and our charity work can be steadily increased. Until it is paid we shall be obliged to strain every nerve to live within our income, as we have been doing for several years, and can only accomplish it by the generous donations of those friends who have so liberally assisted us in the past.

The work of the O. S. A. Sprague Foundation has been successfully carried on, with good results to patients and contributions to the advancement of Medical Science.

Notwithstanding the prevalence of infectious diseases in the city for most of the past winter, there has not been a case among our patients.

In full accord with the Faculty of Rush Medical College and the approval of the Medical Staff, an age limit of service on the latter has been fixed at 65 years.

We have a group of young men of unusual ability and promise on our staff, and this age limit will give them additional opportunities. Plans are being

made for improved and systematic division of the work of the staff, which will still further assist these men.

The staff has been increased by adding an anæsthetist of national reputation, who will instruct all those who are to give anæsthesia, and superintend all the anæsthetic work of our surgical rooms.

The Woman's Auxiliary Board has had the most successful year of its history. Attention is called to their statement, which, however, only partly indicates the real value of their efforts. In enlisting and holding the interest of the churches and of individual members, the work of the Board is of steadily increasing advantage to the Hospital. Their Social Service work has been enlarged, improved, and now has two nurses assisting the families of our poor patients, while the latter are with us, caring for them during their convalescence, and in conjunction with other agencies, assisting in keeping them on their feet and helping them over their emergencies. The work is done carefully and systematically, and is of increasing value. The Board has also contributed generously toward our household expenses.

In common with all other hospitals, there has been with us no diminution of the increasing cost of administration. Your Board had hoped that the year would at least show no increase if it did not exhibit a decrease, but the increase has been as large as that of any of the past five years which have preceded. The causes are the same as have been exhibited in those years. Demands for facilities required by advancing medical methods, increased surgical cases, both requiring larger number of attendants, additional appliances and a freer and more expensive diet for many cases have caused additional cost. It is a great satisfaction to record that the result has been a low percentage of mortality which compares very favorably with any hospital in the country, three per cent.

The year closed without any deficit and with a small credit balance, in addition to the Easter donations of the churches, much of which, coming this year in March, is included in our statement, but belongs to the ensuing year.

Our affiliation with Rush Medical College grows closer every year, as each realizes its advantage to both. And thus our Hospital becomes an important factor in the medical teaching of the West, which is destined to be a prominent influence in the advancement of Medical Science of the country.

Your Board acknowledges with gratitude the loyal co-operation of the Medical Staff and assistants, of the House Staff, of the Superintendent of the Hospital, of the Principal of the School for Nurses and her assistants, of our pupil nurses, and of all officials and employes, to all of whom honor is due, and without whose devotion but little could have been accomplished.

In the hope of increased efficiency the coming year, we submit to you, that what has been done in the past, and what we shall try to attain in the future, warrants your generous assistance. The care of the sick and poor, the training of doctors and nurses, the advancement of scientific knowledge in the causes and prevention of disease, as well as its alleviation, must interest all who desire to help those less fortunate than themselves, as well as those who desire for themselves and their children, when they are sick, the highest medical skill.

This institution is now equipped to do all this work well. It is conducted on business principles, and steadfastly lives within its income.

Your Board gratefully acknowledges the generous gifts of the contributors to our Centenary Fund, to the church donations, to the Yearly Beds and to all assistance which has been given us.

To accomplish its greatest efficiency, it should have an additional endowment of a million dollars. May we not see a substantial part of this amount added the coming year?

In the highest professional opinion, our Hospital stands to-day among the leading hospitals of the country in point of service, teaching, and medical and surgical research. The end in view is nothing less than to place the Presbyterian Hospital of Chicago in the foremost rank of those great institutions which, in America and Europe, are ever advancing the boundaries of scientific knowledge for the conquest of disease. The foundations already laid, the exceptional resources already within our command give assurance of the highest achievement, if financial support commensurate with our inspiring opportunity be received.

ALBERT M. DAY, President.

Auditor's Report

For the Year ending March 31, 1913

ARTHUR YOUNG & COMPANY,

CERTIFIED PUBLIC ACCOUNTANTS,

1315 Monadnock Block.

CHICAGO, 7 JULY, 1913.

*To the Board of Trustees of the Presbyterian Hospital of the City of Chicago,
Chicago:*

DEAR SIRS:—

We have examined the books and accounts of your institution for the year ending 31 March, 1913.

The revenue from operating the hospital as well as the income from investments, together with miscellaneous receipts, have been properly accounted for.

The disbursements for the year are covered by duly authorized and approved vouchers.

The cash on hand and in bank was verified by us and found correct.

All securities representing the investment of the various funds were exhibited to us for inspection and found to agree with the books.

No inventory was taken of the supplies, etc., on hand 31 March, 1913. All supplies paid for during the year, likewise the insurance premiums, have been charged off as expenses. The insurance policies covering the various properties were examined by us.

Yours faithfully,

ARTHUR YOUNG & Co.,
Certified Public Accountants.

THE TENTH ANNUAL REPORT OF THE School for Nurses OF THE PRESBYTERIAN HOSPITAL

Mr. President and Members of the Board of Managers:

The tenth annual report of the School is submitted as follows:

The general day and night nursing care of the sick and the work of the School have been carried on with an average resident staff of one hundred and twenty-one. Adding to this thirty-six graduate special nurses for patients requiring the entire time of one or more graduate nurses, brings the total average of one hundred and fifty-seven.

Two hundred and forty-six days of special nursing has been accomplished, and seven hundred and fifty-two district obstetrical calls have been made by the pupils of the school in addition to the general nursing work of the Hospital.

THE NURSES' HOME.

There have been eleven hundred and sixty-four days of illness among the nurses, making a little over nine days for the individual nurse.

Graduate nurses have accomplished thirteen thousand one hundred and sixty-two days of special nursing in the Hospital, and have taken care of two hundred and thirteen calls received for graduate nurse care in private homes.

On April 30th, 1912, thirty-five members of the Senior Class were granted diplomas, bringing the number of graduates of the School to one hundred and fifty-two.

The new Home holds out great promises of meeting all the needs of the School, and easily ranks among the very best of such buildings. With its early occupancy, provision for suitable endowment would be a step in the completion of the School organization, and an acceptable recognition of the tenth year of its existence.

At the end of another year's work, it is our desire to sincerely thank all who have in any way assisted in bringing it to a successful completion: The physicians and surgeons who have given medical care to the nurses; those who have helped in lecture and class work; the members of the Woman's Auxiliary Board; the Board of Managers of the Institution, and the many other friends who have shown kindness and interest in innumerable ways.

Respectfully submitted,

M. H. McMILLAN,

Superintendent of Nurses.
